STUDENT ACHIEVEMENT AND SUCCESS

Student Achievement is a central focus of Cabarrus College of Health Science's mission "to provide progressive, exemplary healthcare education." The institution measures student achievement annually using the institution's ongoing, integrated, institutional effectiveness process to gauge how well it is achieving the tenets of its stated mission, vision and values.

The standard measures of student success that are most relevant to Cabarrus College include undergraduate retention rates, undergraduate program completion (graduation) rates and performance on professional licensure/certification examinations.

In accordance with the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) *Standard 8.1 (Core Requirement),* Cabarrus College provides and annually updates information regarding student success in achieving its institutional goals in the Student Achievement and Success Report.
