

Quick Guide to COVID-19 Care and Tests

WHERE SHOULD I GO IF... I am having COVID-19 symptoms?

Common symptoms include fever, cough, shortness of breath, or loss of taste and/or smell. If you're having symptoms, you might need both a test and medical care. Start with one of the below options:

Schedule a Test Online at [MyAtriumHealth.org](https://www.MyAtriumHealth.org)

Make an Appointment with Your Primary Care Provider

Walk in or Reserve Your Spot at Urgent Care

Visit a [Mobile Testing Site](#)

I was exposed to COVID-19 but don't have symptoms?

If you were around someone who tested positive in the last 14 days, you might still need to get tested – even if you're feeling fine.

Schedule a Test at [MyAtriumHealth.org](https://www.MyAtriumHealth.org)

Walk in or Reserve Your Spot at Urgent Care

I need a test for work, school or travel?

Sometimes all you need is a negative test, so you can get back to your life.

Call Your Primary Care Provider

Walk into an Urgent Care

The NC Department of Health and Human Services describes several different ways to [access COVID-19 testing](#), including no-cost options. And the SC Department of Health and Environmental Control also describes several different ways to [access COVID-19 testing](#), including no-cost options.

DIFFERENT TYPES OF TESTS

Diagnostic tests can tell you if you have COVID-19 right now. **Antibody tests** can show if you had COVID-19 in the past.

PCR TEST

Most accurate diagnostic test, with results in 24 to 72 hours

RAPID TEST

Fast diagnosis (within 15 minutes) but not as accurate as PCR tests

ANTIBODY TEST

Blood tests that can show if you had COVID-19 in the past
