

# Help us learn more about coronavirus disease 2019 (COVID-19) in our community

The COVID-19 Community Research Partnership is a community study to learn more about COVID-19 and how it is spreading in our community.

## Why are we doing this study?

There is a lot we don't know about COVID-19. Questions like: How does it spread? Who is at risk? Who has the virus? What are the symptoms?

## What will we learn from this study?

The study will help us learn how to better prevent and treat COVID-19.

## Who can join?

- Anyone 18 years or older who works for Atrium Health or is a patient at Atrium Health.
- Visit [AtriumHealth.org/COVID19Research](https://AtriumHealth.org/COVID19Research) to join the study.

## What is involved?

- A short, daily email survey about your symptoms.
- Every few months, you may get a finger prick test kit to see if you have antibodies to COVID-19.

All Atrium Health patients and teammates from different races, ethnicities and neighborhoods are invited to join.

## Questions? Contact Us

- Visit the study website at [AtriumHealth.org/COVID19Research](https://AtriumHealth.org/COVID19Research) or contact the study team at 704-468-8886 or [CV19survey@AtriumHealth.org](mailto:CV19survey@AtriumHealth.org).
- If you feel sick or need care, call your Atrium Health doctor or our 24/7 Health Line at 704-468-8888.
- If your symptoms are life-threatening, call 911 right away.
