COVID-19 Vaccine Registry Now Open

We're looking for volunteers who want to learn about – and possibly join – a future COVID-19 vaccine research study.

The COVID-19 pandemic has created a global health emergency. Millions have been infected with the virus and everyone has been impacted by preventative measures, like social distancing, as we try to slow the spread. Currently, there are no antiviral medicines or licensed vaccines to treat COVID-19. But we hope to change that – with your help.

The first step in a COVID-19 vaccine research study is creating a registry (or a list of names). If you'd like to help, please consider signing up.

JOIN OUR VACCINE REGISTRY

If you sign up:

- You may get information about vaccine research sent to you
- The information you provide will be reviewed by the vaccine research team
- You may be contacted by the vaccine research team about COVID-19 vaccine studies

If you sign up for this registry, you are NOT signing up for a vaccine research study. You are signing up to learn more and possibly be contacted about vaccine studies.

There are 2 ways to sign up:

- [Redcap.link/STRIVEregistry](https://redcap.link/STRIVEregistry)
- Scan this QR code
