

## COVID-Safe for Employers

Expert Return-to-Work Programs, Customized for Your Needs

COVID-Safe for Employers helps organizations by providing critical COVID-19 vaccination and testing, as well as expert guidance and support.

### OUR SOLUTIONS

#### On-Site Vaccination Clinics

Our on-site vaccination clinics eliminate barriers for employees wanting their COVID-19 vaccines and boosters by providing clinics at the employer's worksite.

On-site vaccination clinics are available to groups with 30 or more participants and employers pay a nominal convenience fee per event day to bring these services onsite.

Flu vaccinations may be added and administered at the same time as the COVID-19 primary series or the booster.

#### On-Site COVID-19 Testing

Our on-site COVID-19 testing program removes the burden of coordinating testing either following an exposure or to meet government mandates and/or organizational requirements for mitigation.

**Testing Options:** Employers can choose between two types of testing, based on availability.

- Rapid Testing - results are expected within 15 minutes
- PCR Lab-Based Testing - results are expected within approximately 2 to 3 days

Following the event, employers will receive a comprehensive results report for all employees.

## Vaccination and Testing Tracking

We can help cut through COVID-19 administrative challenges and simplify your daily operations with our COVID-19 vaccination and testing tracker.

Our tracker is a web-based platform that provides administrative tools for managing COVID-19 vaccinations, testing, symptom reporting and exposure management across your workforce, so that you can keep employees safe.

### Employee benefits:

- Easy to track symptom daily on any smartphone, tablet or computer
- Easy to upload weekly testing results and proof of vaccination
- Daily and weekly health survey reminders via text or email
- Connections to follow-up care, if needed

### Employer benefits:

- A real-time dashboard that keeps track of employee symptoms, vaccinations, testing and more
- Daily and weekly reports for easy compliance
- Customizable employee groupings that support complex businesses and multiple locations or workgroups

## Additional Services

We have many additional services that can be customized to meet your needs, including:

- Workplace exposure management
- COVID-Safe consulting
- On-site antibody testing
- Free symptom tracking tool
