

# SCOTLAND HEALTH CARE SYSTEM

## Clinical Privileges Delineation Form

Specialty: Optometry

Physician Name: \_\_\_\_\_

### I. General Privileges

By virtue of being granted any level of clinical privileges, a physician is automatically granted the following privileges:

Performing physical examinations and ordering and interpreting of diagnostic studies limited to the optometric problems of the patient, including, but not limited to, laboratory and diagnostic imaging studies.

Prescribing and administering medications normally considered part of the practice of optometry.

Requesting consultations and technical procedures to be performed by other physicians and qualified consultants/technicians.

At the time of a clinical emergency, the provision of whatever care the physician believes to be indicated to prevent loss of life or serious injury to a patient.

### II. Specific Privileges: Clinical

Physicians granted clinical privileges in Optometry must demonstrate knowledge and skills usually achieved only through training sufficient to attain eligibility for Board certification in Optometry, or equivalent experience (NOTE: if sufficient training is not documented, specific experience must be outlined in writing).
