

# What Is an Age-Friendly Health System?

Older adults with cancer often face different challenges than younger adults and require a different level of care.

Atrium Health Levine Cancer is proud to offer a dedicated Senior Oncology program. This program has achieved the highest level of age-friendly accreditation from the Institute for Healthcare Improvement.

To achieve this age-friendly accreditation, we follow the 4Ms:

- **What Matters:** Learning what is most important to you and making a care plan to include your wishes.
- **Medication:** Reviewing your medicines to make sure they are working well and safely together.
- **Mentation:** Preventing, screening and managing conditions such as dementia, depression and delirium.
- **Mobility:** Helping patients move safely throughout the day to achieve their goals.

**Atrium Health**  
Levine Cancer

With a one-of-a-kind program that can't be found anywhere else in the Carolinas, our dedicated team provides specialized care that improves patients' quality of life and care experience, leading to better outcomes.

### **What Sets Us Apart:**

- Create personalized treatment plans
- Manage medications and side effects
- Connect you with resources such as dietitians, physical therapists, yoga classes and more
- Provide support throughout your entire cancer journey
- Offer new therapies
