

Regenerative Medicine Essentials Poster Symposium!

Monday June 1, 2026

Interested in Regenerative Medicine Research?

Regenerative medicine is the future of healthcare! At WFIRM, we're on a mission to change lives by developing cutting-edge regenerative therapies and breakthrough technologies. If you're passionate about science and innovation, this is the field where you can make a real impact!

Pick a Topic

- Stem Cells/Cell Therapy
- Tissue Engineering
- Bioprinting Organoids
- Biomaterials
- Emerging Technologies
- Scale Up and Manufacturing

Tell a Story

Use key details like *background*, *innovations*, and *impact* while keeping it engaging. Use compelling images and interactive elements like QR codes to add depth. Be creative and informative to capture attention and make your message memorable!

Design a Poster

- Use these guidelines!
- Create a Power Point slide
 - 24 in x 18 in
 - 40 font for titles
 - 36 font for text
 - Can be portrait or landscape
 - Include sources
 - Include your name!
 - Save as PDF file

Regenerative Medicine Poster Symposium Guidelines

What is the Regenerative Medicine Poster Symposium?

Regenerative Medicine seeks to replace or restore lost functions in the body. While the concept has been around since the early 1900's, it is now revolutionizing healthcare! The 2026 2nd Annual WFIRM Poster Symposium is a poster presentation that challenges middle and high school students to demonstrate their understanding of Regenerative Medicine's (RM) groundbreaking discoveries, clinical applications, regulatory hurdles, and manufacturing challenges.

Eligibility

All NC middle and high school students are eligible to apply.

Submission Deadline and Upload Instructions:

All posters must be submitted by 5pm EST on May 10, 2026 to be considered for the 2026 Public Day Poster Symposium. A max of 50 posters will be selected for presentation. All submissions must be submitted to the Jotform link found by scanning this QR code:
