

HOW YOUR DOLLAR MAKES MIRACLES AT CHILDREN'S HOSPITALS

Dollars you help raise, make miracles! Dollars go to purchase equipment and support services that would otherwise not be available to patients of Levine Children's Hospital.

Neonatal Intensive Care (NICU) Giraffe Bed

- Simpler and safer transport for our tiniest and sickest patients.
- The majority of equipment needed for care is all there, in one place.

Giraffe Bed warmers

- Assists in regulating body temperature of patient
- Also includes in-bed scale

Bioness L300 Go System

- Important piece of equipment for our pediatric rehabilitation patients.
- Stimulates the leg to help reeducate the brain signals, to help restore function in weak or paralyzed muscles.
- Makes it easier for patients to walk with increased speed and improved balance.

AirBorne Transport Incubator

- Used for our tiniest and sickest MedCenter Air transport patients.
- Includes all the bells and whistles that our patients would receive just as if they were within our hospital walls.

Accuvein Illuminator

- Great tool for when examining our smaller children whose veins are very thin and may be hard to find.
- Illuminates patient veins allowing for faster and less painful procedures.

Anti-Gravity Treadmill

- Similar to the equipment professional athletes use during rehabilitation for lower body injuries.
- Uses air pressure to unweight the patient while they strengthen their muscles and learn to make walking movements again.

Why do we need your support?

CHILDREN'S MIRACLE NETWORK HOSPITALS PROVIDE

32 MILLION 

PATIENT VISITS FOR 10 MILLION KIDS EVERY YEAR.

EVERY HOUR 

CHILDREN'S MIRACLE NETWORK HOSPITALS TREAT:
