

# Aflac can complement your benefits package

Health insurance wasn't designed to cover everything. Whether you are currently participating in an HSA (Health Savings Account) program or not, Aflac provides an additional financial option to help with medical costs. Family coverage is available, and benefits are paid directly to you, unless otherwise assigned.

## BenExtend® is an important piece of the puzzle.

BenExtend® insurance features the most commonly used benefits from our accident, critical illness and hospital indemnity plans, along with a \$50 Health Screening Benefit. Aflac's BenExtend® offers a cost-conscious benefits solution to help you manage out-of-pocket expenses, deductibles, and other health care costs.

## Benefits include:
