

Meet Kealin

Kealin Coffin

NP-C

Nurse Practitioner

I like talking about preventive medicine with my patients.

About Me

My goal as a nurse practitioner is to provide high-quality care to children and adults of all ages. That means care for minor injuries, patient education, disease management and preventive health services. Bedside procedures are a specialty of mine, although as a nurse practitioner I handle mostly urgent care. My nursing background is in emergency medicine.

My Education and Experience

- Master of Science in Nursing, Tennessee State University
- Bachelor of Science in Nursing, Cumberland University
- Bachelor of Science in Exercise Science, Tennessee Technological University
- Certifications: BLS
- Professional Memberships: American Academy of Nurse Practitioners
