**RE: County Stay at Home Order**

March 26, 2020

To Whom it May Concern:

The individual with this letter is commuting to help care for the children of an employee of Atrium Health as permitted under the Stay at Home Order. Because healthcare operations are considered an essential business under the Order, they are permitted to leave their residence to commute to/from work. Given the 24-hour nature of healthcare operations, this individual may be providing care to children of our employees outside of traditional business hours.

Thank you for understanding the needs of this caregiver to be out during this Stay at Home Order.

Sincerely,

Jim Dunn, PhD, DHA, DAST, FACHE  
EVP and Chief People and Culture Officer  
Atrium Health
