

**Professional Licensing and Certification Disclosure**

**Clinical Research Coordinator**

Cabarrus College clinical programs embrace best practices in healthcare education and prepare students for professional licensure, certification, and practice. Educational requirements to sit for credentialing examinations and to practice vary from one state to the next.

Cabarrus College researched educational requirements for the following states and territories, and per federal requirements, has determined whether or not its program curricula meet educational requirements for licensure/certification. In some instances, the College was unable to make a determination at this time.

National certification information is located at the [Association of Clinical Research Professionals website](#). Cabarrus College strongly encourages prospective and enrolled students to contact licensing boards or regulatory agencies in the state/territory in which they wish to practice for additional information and to confirm whether successful completion of our program meets state credentialing requirements. At this time, the College could not locate any such entities.
