HAYWORTH CANCER CENTER

302 Westwood Avenue, High Point, NC

336-878-6432

HayworthCancerCenter.com

Hayworth Cancer Center is a part of
Wake Forest Baptist Health
Comprehensive Cancer Center

The National Cancer Institute officially designates select cancer centers in America as "Comprehensive" for meeting the highest possible standards. Research shows that choosing an NCI-designated Comprehensive Cancer Center could increase your long-term survival rate by up to 25%.

Thoracic Oncology Services

HAYWORTH CANCER CENTER

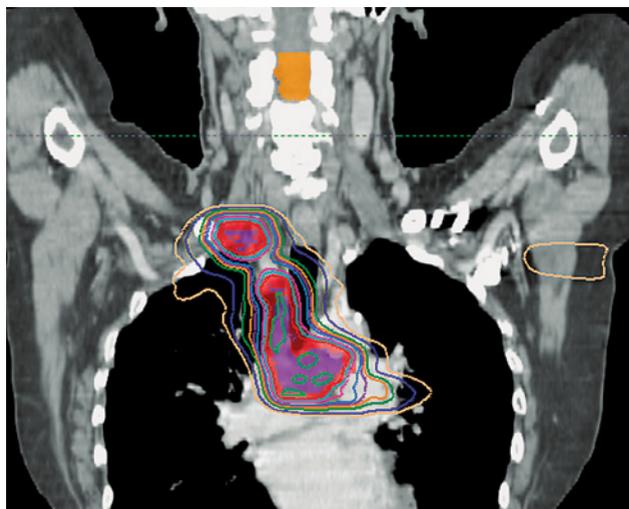

Hayworth Cancer Center now offers a Thoracic Oncology program with a full range of diagnostic, surgical and medical expertise. Patients now have access to the newest treatment modalities as well as clinical trials.

Pulmonary Services

Pulmonologists, Dr. Muhammad Ejaz, Dr. Katherine Gershner and Dr. Karl Thomas provide comprehensive lung services for patients with breathing disorders, lung nodules, lung cancer and other malignancies. We use the latest screening and diagnostic techniques and technologies, including endobronchial ultrasound, to diagnose lung infections and diseases. Additionally, we offer a smoking cessation program for our patients.

Thoracic Oncology Surgical Services

Dr. Robert Ferguson, Thoracic Surgeon, identifies the best surgical approach for lung cancer patients, ranging from traditional surgical options to the latest techniques, including robotic-assisted thoracic surgery. This procedure, using the most advanced technology, is minimally invasive, results in less pain, fewer complications, and shorter hospital stays.

Thoracic Program Coordinators

Pam Boswell is the Lung Nurse Navigator and Jennifer Maclean is the Lung Screening Program Coordinator.

Our goal is to work with referring providers to identify and treat lung cancers and conditions at the earliest stages possible. We offer you and your patients the latest screening, diagnostic and surgical options.

REFERRALS

Pulmonary Services Referral

If you have a patient that needs pulmonary care or diagnostic evaluation from a lung screening, we have two convenient Pulmonary clinic locations for your patients:

High Point Medical Center Hayworth Cancer Center
302 Westwood Ave, High Point, NC 27262

Refer a patient: Call Brittney Huskey at 336-878-6432

WakeOne (EPIC) Referral:

- Order Ambulatory Referral to Pulmonology (REF94)
- Select HPMC CC 03 Pulmonary Medicine

Referrals can also be emailed to SchedulingSOThoracic@wakehealth.edu or faxed to 336-878-6139.

Pulmonology – Premier

4515 Premier Drive, High Point, NC 27265

Refer a patient: Call Wendy Bartley at 336-802-2090

WakeOne (EPIC) Referral:

- Order Ambulatory Referral to Pulmonology (REF94)
- Select PD451 03 Pulmonary Cornerstone

Thoracic Oncology Surgical Referral

High Point Medical Center Hayworth Cancer Center
302 Westwood Ave, High Point, NC 27262

Refer a patient: Call Brittney Huskey at 336-878-6432
