## Frequently Asked Questions

### **Am I required to be transferred by ambulance?**

Ambulance transfer is the preferred method to ensure optimal care between facilities. This allows for ongoing care during the transfer process to address your medical needs, make you more comfortable and keep you safe.

### **Is ambulance transportation, for transfer purposes, included in my hospital bill?**

Ambulance services will be provided by Wake Forest Baptist Health at no cost to you.

### **Will my records be immediately available to providers and clinical staff at Lexington Medical Center?**

Wake Forest Baptist Health has an integrated electronic medical record that allows for immediate access to your records anywhere within our system. The medical team at Lexington will be able to see your records and imaging from anywhere in the Wake Forest Baptist Health system.

### **Does my doctor practice at Lexington Medical Center?**

The inpatient care team at Lexington Medical Center is part of the Wake Forest Baptist Health system. They will work to coordinate your medical care and ensure all transitions of care are appropriately communicated. We have an advanced telemedicine service, which allows you and your provider at Lexington to get expert consultation when needed.
