Main number for questions is 336-716-LABS for Laboratory Customer Service. Patients with requisitions may proceed directly to any of these clinics to have blood specimens drawn. Referred pediatric patients requiring blood collection should be directed to the Pediatric Outpatient or CompRehab locations. Outside accounts who may utilize a prescription pad for a lab requisition may direct patients to any of the outpatient collection stations.

Patients must have lab orders, either paper or electronic, for all tests ordered to give to the phlebotomy technician prior to having blood drawn.
