

CTSI Services Flowchart: Supporting Dr. Jill Urban’s Research Journey

This table illustrates how CTSI’s suite of resources supported Dr. Urban across every research milestone—from training and funding to writing, community engagement, and implementation.

Researchers can use this as a guide to identify the right CTSI services for their own needs.

	Researcher Needs	CTSI Service/ Program Used	Outcome/Impact
	Protected time, mentorship, and skill development for early-career research	KL2/K12 Program, Translational Research Academy	Career foundation, MPH degree, public health and community engagement skills
	Funding for pilot neurocognitive data in youth athletes	Ignition Fund	Provided preliminary data for grant applications (F31, R01)
	Grant writing, editing, and proposal refinement	K&R Writers Series, Scientific Editing Services	Improved grant proposals, successful R01 funding
	Early-stage grant planning and expert feedback	Research Studios	Strategic advice, refined proposals, persistence through setbacks
	Community partnerships for intervention development	Community-Engaged Research Consultation	Shift to community-engaged science, stronger collaborations, safer sports environments
	Implementation science guidance for intervention rollout	Implementation Science Shared Resource	COACH program adaptation and expansion, improved athlete safety
