

# Intercampus Pilot Award

Wake Forest University and Wake Forest University School of Medicine are proud to present the newest awardees of the Wake Forest Intercampus Collaborative Pilot Grant! These investigators have come together across campuses to foster interdisciplinary research collaborations that spark long-term projects that can garner external funding for novel ideas to benefit human health. Congratulations to the awardees!

## PILOT AWARDEES AND THEIR PROJECTS:

### Behavioral and Neural Signatures of Age-Related Changes in Cognition
