

Richard Flowers, DNP, CRNA, CHSE # 29

Richard Flowers, DNP, CRNA, CHSE, earned a Master of Science degree in Nurse Anesthesia at Middle Tennessee School of Anesthesia and a Doctor of Nursing Practice degree from the Baylor College of Medicine Nurse Anesthesia Program. In his numerous years of nurse anesthesia practice, Dr. Flowers has worked in a variety of practice settings with a majority of his career devoted to the practice of OB anesthesia. He now enjoys sharing that experience with the next generation of nurse anesthetists in his current role as Assistant Professor and Educational Innovator at Wake Forest School of Medicine, Department of Anesthesiology and Nurse Anesthesia Program. Dr. Flowers has particular academic interests in the areas of quantitative neuromuscular monitoring modalities and the prevention of residual neuromuscular blockade, cultural humility education in the nurse anesthesia profession, and simulation in nurse anesthesia education.
