Excellence in Cardiovascular Sciences (EICS) Summer Research Program 2024

THE PROGRAM: Wake Forest University Graduate School of Arts and Sciences and Wake Forest University School of Medicine in Winston-Salem, North Carolina will host a summer research program to increase diversity in health-related research. The program focuses on research training in the cardiovascular sciences with medical school faculty. The curriculum includes biomedical laboratory research, a lecture series that features presentations by faculty and guest speakers, and a research symposium at which the students present their research findings. Undergraduate students with an interest in a career in biomedical research are encouraged to apply.

2022 EICS Participants

ELIGIBILITY: Students applying to this program must be:

- Underrepresented minorities (i.e. African American, Alaskan Native, Native American, Asian-Pacific Islander or Hispanic), students with disabilities or from disadvantaged backgrounds (from urban/rural areas, first-generation college student, etc.)
- U.S. citizens or permanent residents of the U.S.
- Undergraduate students in good academic standing

PROGRAM INFORMATION: The 2024 EICS Summer Research Program participants will receive a stipend of \$15/ hour, housing in one of the WFU residence halls, round-trip transportation expenses, and shuttle service while on campus. The EICS requires a full-time, 40-hour work week (8AM-5PM) commitment for the 8-9 weeks of the summer program. The EICS is sponsored by the National Heart, Lung and Blood Institute.
