

Are you an active CHW ready to expand your knowledge and make a bigger impact on your community? The **PREFER CHW Training Program** is your chance to gain valuable skills in genetics and learn how to support your community in accessing genetic clinical services and research.

The **PREFER CHW Training Program** (PaRtnEring to build understanding oF gEnomics Responsibly) is a **virtual course** where you will learn:

- ✓ How to collect and use family health history
- ✓ How to navigate genetics resources
- ✓ Information about genetic conditions like hereditary cancers (breast, ovarian, colorectal) and sickle cell disease
- ✓ About ethical issues related to genetics research

KEY INFORMATION

Start Date: week of September 15, 2025

End of Course: week of November 10, 2025

- Course is delivered through pre-recorded videos and four scheduled virtual meetings
- Participants complete a practical applications project
- You will be compensated for completing the course
- You will receive a certificate of completion for 20 hours of learning

Apply by Friday, August 15
