

Office of Pathway Programs presents:

ECHO

Empowering Character through Healthcare Opportunities

Offers students an immersive, week-long experience at Wake Forest University School of Medicine. Through hands-on, inquiry-based STEM activities and tours of our medical school campus and state of the art hospital, participants will get a glimpse into the world of healthcare.

Program Highlights

- Explore different careers in healthcare & STEM-related fields through engaging hands-on activities and tours.
- Helps students build character, leadership, & flourishing skills for their future careers.
- Provides mentorship & academic counseling to students.
- Snack & Lunch provided each day.
