Approval Signature: 		Date Approved:	07/01/17
Typed Name and Title: Marcia Wofford, MD Associate Dean for Student Affairs			
Approval Signature: 		Date Approved:	07/01/17
Typed Name and Title: Mary Claire O'Brien, MD Senior Associate Dean for Healthcare Education			

The Dress Code Policy requires students to comply with the following requirements:

- Clothing should be clean, neat, properly fitting, and not excessively worn.
- Revealing, tight-fitting, or otherwise provocative clothing should not be worn. Specifically, short skirts, low neck lines, and any amount of exposed midriff are inappropriate.
- Visibly wear your WFSM identification at all times. Do not use items to cover your name or face.
- Scrubs are generally intended for procedurally-based specialties or when spending the entire night in the hospital. They still should be clean and fit appropriately.
- Body odor and heavy scents are not allowed. No perfumes, colognes, or aftershave should be worn in the clinical setting as per WFBH institutional policy.
- Nails should be kept neat and trimmed per OSHA requirements

Additional policy guidelines specific to patient care areas, standardized patient (SP) assessments, and observed structured clinical evaluations (OSCEs):

- Collared shirts for gentlemen. No T-shirts of any type should be worn as an outer garment. If a T-shirt is worn under scrubs, it should not have a visible logo or slogan on it
- Blue jeans or shorts are never acceptable.
- Closed-toe shoes are required in the Emergency Department, Operating Room, Labor and Delivery, and other areas where there is a high risk of blood, body fluid, or sharp exposure. Flip flops are never acceptable. Shoes should not be excessively worn or soiled.
- A white lab coat should be white, clean and not torn.
- Hair should be clean and neatly cut.
- An unshaven appearance is unprofessional, so shave daily. Beards and mustaches should be clean and neatly trimmed.
- Facial piercings are inconsistent with most patients' expectations of professional appearance (*J Gen Intern Med.* 2005;20:312-313) and hence are discouraged.
- Religious-based exceptions to any of the above will be reviewed on a case-by-case basis.
