

## RESEARCH SYMPOSIUM

# Vaccines

From the bench to the community:  
Accelerating impact through discovery

Oct 20, 4:30 PM – 6:00 PM

4:30 Martha Alexander-Miller, PhD  
Christine B. Turley, MD Welcome and Introduction

### Impacting our community through vaccine development

4:40 Charles Semelka, MD SARS-CoV-2 mRNA Vaccine Response: Pilot Study of Older Adults in Nursing Home

John Sanders, MD, MPH A Psoralen Inactivated SARS-CoV-2 Vaccine as a Potential Heterologous Booster

Alexis Morse A New Vaccine Approach for Prevention of Urinary Tract Infection (UTI)

Kali Crofts Influenza Vaccine Research: Designing a Broadly Protective Influenza Vaccine in Newborns

5:05 Questions and Discussion

### Impacting our community through vaccine uptake

5:15 Lorene A. Temming, MD, MSCI, FACOG Pregnancy, lactation, and the COVID-19 Vaccine: Battling Myths and Misinformation

Cheryl Courtlandt, MD Because You Matter: Conversations You Want about COVID-19 Vaccines—An Interactive, Online Toolkit to Support Dialogue Across the Health Care System and the Community

Brandi Newman, MSN, RN, NEA-BC COVID-19 vaccines for Diverse Populations: Increasing Acceptance and Uptake throughout our communities

Gary Little, MD, MBA Employer Mandates and Vaccine Uptake

5:45 Questions and Discussion

6:00 Greg L. Burke, MD, MSc Closing Remarks
