

Wake Forest Older Americans Independence Center (WFOAIC) Integrated Aging Studies Databank and Repository (IASDR)

Data Publication Guidelines

Purpose: To provide investigators using data from more than one WFOAIC IASDR listed study for analyses and publication (abstracts, presentations or manuscripts) with expectations regarding: 1) who to include as co-authors, 2) what grants to cite in support of the work, and 3) how to update the status of publication to the OAIC.

Authorship: The Primary Author of each publication/presentation using OAIC data should:

- Ensure that the analyses being conducted has IRB approval and a Data Use Agreement (for authors external to Atrium Health) in place;
- Ensure that all authors listed meet qualifications for authorship according the ICJME guidelines—<https://www.icmje.org/recommendations/browse/roles-and-responsibilities/defining-the-role-of-authors-and-contributors.html>;
- Include at least one current OAIC investigator in the development of the idea, data analyses, and/or writing of the publication/presentation;
- Include any PIs of studies who have made a disproportionately larger contribution to the development of the idea, data analyses, and/or writing of the publication/presentation; and
- Invite the PI of a study whose data are being included for authorship if the study: is a) ongoing, b) less than five years from completion, or c) the person has a specific expertise or input into the condition/disease being studied.

Grant Citations: The Primary Author of each publication/presentation using OAIC data should use the IASDR Study Summary Document to:

- Ensure that the current OAIC grant number (P30 AG021332) is cited;
- Cite all of the grants that supported the data collection; and
- Cite the CTSA grant number (UL1 TR001420 if study was conducted prior to 2024 or UM1 TR004929 if conducted after; use both if project crosses grant cycles) if the data were collected with support of that grant (Used the CRU, Data extraction, REDCap or other service).

Publication Status: The Primary Author of each publication/presentation using OAIC data should inform Kim Kennedy at kkennedy@wakehealth.edu when a manuscript or presentation abstract is submitted and when it is published. If you request the WFOAIC to review and provide comment prior to submission, please send at least 2 weeks in advance.
