Computed Tomography

The Computed Tomography (CT) classes are designed to advance knowledge and skill with the modality of computed tomography. With both online didactic and practicum experiences, students are introduced to advanced CT procedures.

The Computed Tomography courses are offered in the spring semester. Classes are designed for the radiographer, nuclear medicine technologist and radiation therapy technologist. Upon completion of the 6-credit hour courses, students are eligible for the American Registry of Radiologic Technologists (ARRT) registry by meeting the minimum required number of scans (125).

Required application components:

- 2.5 college cumulative GPA (official transcripts required)
- Associate degree or equivalent diploma from a JRCERT-accredited radiography or nuclear medicine technology program
- ARRT or NMTCB certification

Computed Tomography courses:

CTT 101 Computed Tomography	3 credits
CTT 102 Computed Tomography Practicum	3 credits
