CAROLINAS COLLEGE OF HEALTH SCIENCES
POLICY AND PROCEDURE

STUDENT AFFAIRS

SUBJECT: TUTORING

REVIEWER: Director of Teaching, Learning and Technology
                              Student Success Coordinator

POLICY
Virtual tutoring is offered free of charge as a learning resource for students experiencing academic difficulty through a virtual platform. Tutorial services are provided as a supplement to regular class work and are not a substitute for attendance. Students are also encouraged to reach out to the student success coordinator(s) for assistance with study skills and strategies.

PROCEDURE
1. Students can sign into our learning management system and select the tutoring link within the Student Success Center course or reach out to our Student Success Coordinator(s) for assistance with how to find and access our current tutoring platform.
2. Students then can sign up or join a tutoring session on the platform on as needed basis.

The Tutoring Policy will be reviewed bi-annually.
