

The Insider's Guide

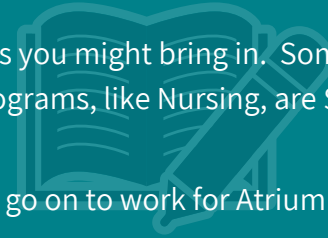

Carolinas College Admissions

How much is tuition?

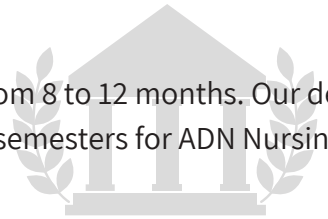

It really depends on the program and other factors, like how many transfer credits you might bring in. Some programs, like Medical Laboratory Science, have a flat tuition of \$9,487. Other programs, like Nursing, are \$382 per credit hour. Click [here](#) to get more details about a specific program.

It's worth noting that many of our programs offer a loan forgiveness option if you go on to work for Atrium Health. Plus, about 84% of our students receive some sort of financial aid to help with tuition.

How long will it take?

Again, it depends on the program, but our certificate programs typically range from 8 to 12 months. Our degree programs can range from 12-18 months for our online BSN program to around 5 semesters for ADN Nursing, Radiologic Technology and Neurodiagnostic Technology.

What salary can I expect after graduating?

Healthcare jobs are in demand across the nation. The Bureau of Labor Statistics tracks median salaries for some specific roles:

- \$82,330 for radiation therapists
- \$71,730 for registered nurses
- \$61,240 for radiologic and MRI technologists
- \$52,330 for clinical laboratory technicians

The Insider's Guide

Carolinas College Admissions

I often get asked what we look for in an applicant to Carolinas College. Every student is evaluated individually, but some of the factors we consider are GPA and test scores, work experience (a bonus if it's in the healthcare field), leadership experiences and community service. We also want students who are motivated. Our programs are rigorous, but that's so our students are well prepared to hit the ground running in their healthcare careers.

- Jameson Donnell, MA - Director of Admissions and Recruitment

This program has completely exceeded my expectations. I received an elite education, acquired invaluable laboratory experience and made lifelong friends.

-Taylor Eatmon, Alumna

I learned so much in clinical settings that other schools don't even have access to, and the teachers are fully devoted to their students.

-Kiara Johnson, Alumna

What brought me to Carolinas College was the warm and friendly environment, the awesome instructors and the impressive statistics.

-Ehsan Khodapasand, Alumnus
